Whole School Food Policy

Date written:	<i>February 2016</i>
Written by:	<i>Mr Nicholas Edwards</i>
Next review:	<i>February 2018</i>

Our policies are written with our School Values in mind. These are:

1. Care;
2. Courage;
3. Creativity;
4. Forgiveness;
5. Honesty;
6. Hope;
7. Perseverance;
8. Respect;
9. Responsibility;
10. Thankfulness; and,
11. Trust.

Pupil choice

WHOLE SCHOOL FOOD POLICY

INTRODUCTION

Paulerspury C.E. Primary School is dedicated to providing an environment that promotes healthy eating and enabling pupils to make informed choices about the food they eat. This will be achieved by the whole school approach to food and nutrition documented in this policy. This policy covers all aspects of food and drink at school and should be read alongside the school's Curriculum, Teaching & Learning Policy, with specific reference to the Design Technology, PE and PSHE sections.

Our school is an accredited 'Enhanced Healthy School', it is therefore important that we consider all elements of our work to ensure that we promote health awareness in all members of the school community. We can provide valuable role models to our pupils and their families with regard to food and healthy eating patterns. Through effective leadership, the school ethos and the curriculum, all school staff can bring together all the elements of the school day to create an environment that supports a healthy lifestyle.

Paulerspury C.E. Primary School is working with a Healthier Child Advisor to embed the promotion, understanding and implementing of the Healthier Child Project 2020.

This policy was formulated through consultation between members of staff, governors, caterers, parents/carers, children [in particular our SNAG leaders].

This policy is communicated to the entire school community. It is adhered to by everyone involved with the teaching/serving/cooking of food and drink in school during the day and our partners that share our school premises.

FOOD POLICY CO-ORDINATOR

This policy and healthy eating strategy is co-ordinated by Mr Nicholas Edwards.

FOOD POLICY AIMS

The main aims of our school food policy are:

1. To enable pupils to make healthy food choices through the provision of information and development of appropriate skills and attitudes
2. To provide healthy food/drink choices throughout the school day and ensure food brought into school is healthy too
3. To ensure that all aspects of food and drink in school promote the health and well being of pupils, staff and visitors to our school

The main aims of our school food policy are:

1. To enable pupils to make healthy food choices through the provision of information and development of appropriate skills and attitudes.
2. To provide healthy food choices throughout the school day.

These aims will be addressed through the following areas:

1. EQUAL OPPORTUNITIES

In healthy eating, as in all other areas of the curriculum we recognise the value of the individual and strive to provide equal access of opportunity for all.

2. CURRICULUM

Food and nutrition is taught at an appropriate level throughout each key stage.

This is addressed through:

Teaching methods

Effective teaching requires pupils to develop their understanding of healthy eating issues and appropriate skills and attitudes to assist them in making informed decisions. Teaching methods adopted in the classroom offer a rich variety of opportunities for participatory learning and include debating issues, group discussions and role-play. These decisions are made at teacher planning meetings.

Leading by example and staff training

Teachers, caterers and school nurses have a key role in influencing pupils' knowledge, skills and attitudes about food, so it is important that they are familiar with healthy eating guidelines. To facilitate this staff will be regularly updated through staff meetings, emails/letters and discussions.

Visitors in the classroom

We believe it is the responsibility of the school to ensure that the contributions made by visitors to the classroom reflect our own philosophy and approach to the subject. The status of visitors to the school is always checked ensuring that the content of the visitor's talk is suitable for the ages of the pupils. The school's code of practice for visiting speakers is adopted.

Resources

Resources for the teaching of healthy eating in PSHE have been selected to complement the delivery of the curriculum in other subject areas. These are stored in the resource room. Books are available for pupils in the library.

Evaluation of pupils learning

The healthy eating aspects of the National Curriculum are assessed through Teacher assessment.

Other aspects of healthy eating work are evaluated through activities, which have been built into the programme, as part of the planning process.

3. SNACKING

Paulerspury C.E. Primary School understands that snacks can be an important part of the diet of young people and can contribute positively towards a balanced diet.

The school discourages the consumption of snacks high in fat and sugar at break-time but encourage fruit or vegetables to be eaten. Key Stage 1 and Foundation Stage pupils have their fruit or vegetables at morning break.

4. USE OF FOOD AS A REWARD

The school does not encourage the regular eating of sweets or other foods high in sugar or fat, especially as a reward for good behaviour or academic or other achievements.

5. DRINKING WATER

The National Nutritional Standards for Healthy School Lunches recommend that drinking water should be available to all pupils, every day, and free of charge.

The school agrees with this recommendation and provides a free supply of drinking water, in their own labelled water bottles. These are made accessible throughout the school day.

6. FOOD AND DRINK BROUGHT INTO SCHOOL

MOBILE CATERERS SERVING FOOD ON SCHOOL PREMISES

To operate on school premises, mobile caterers must demonstrate that their staff have undergone appropriate food hygiene training, that their facilities meet appropriate food safety requirements and that they provide lower fat alternatives to foods and dishes with ingredients in the proportions depicted in the Food Standards Agency Balance of Good Health guidance.

PACKED LUNCHES

The school encourages parents and carers to provide children with packed lunches that complement these standards. The 'Health and Wellbeing' section of the school website provides the most up-to-date guidance.

7. SPECIAL DIETARY REQUIREMENTS

SPECIAL DIETS FOR RELIGIOUS AND ETHNIC GROUPS

The school provides food in accordance with pupils' religious beliefs and cultural practices.

FOOD ALLERGY AND INTOLERANCE

Individual care plans are created for pupils with food allergies. These document symptoms and adverse reactions, actions to be taken in an emergency, and emergency contact details.

8. FOOD SAFETY

Appropriate food safety precautions are taken when food is prepared or stored. These vary depending on the food on offer and include: ensuring that adequate storage and washing facilities are available; that food handlers undergo appropriate food hygiene training; and that suitable equipment and protective clothing are available. Any food safety hazards are identified and controlled. We consult our local Environmental Health Department about legal requirements.
